Legacy Migration

LEGACY MIGRATION

Upgrading your Industrial Control Systems (ICS) can be a major undertaking. However, it presents the opportunity to modernize your system and provide operational agility and productivity. **The result?** Increased production and reliability.

As a platform-independent integrator, Champion Technology Services will make the best recommendations for **your** specific needs, regardless of system manufacturer. And, we are with you every step of the way – from Pre-Planning to Commissioning and beyond.

Providing you with a **single point of contact**, clients benefit from certified **PMPs** (Project Management Professionals) and **PgMPs** (Program Management Professionals) – the gold standards in project and program management. Your legacy migration will adhere to Champion's detailed Project Execution Methodology, which aligns with PMI's global standards.

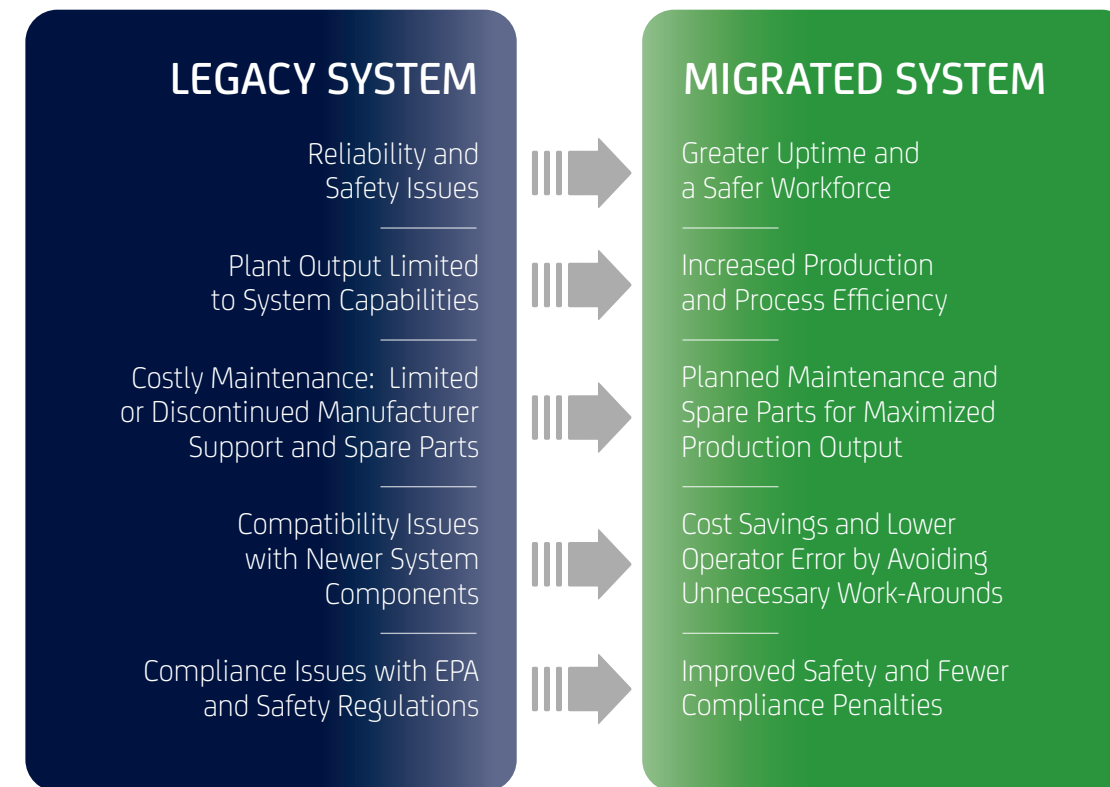

When you work with Champion to migrate your control system, our goal is to not only bring your operational technology up to the latest standards – but also to prepare for evolving and emerging technologies. This forward-thinking approach makes your investment viable for decades, reducing maintenance costs, increasing performance, and maximizing production.

WHY MIGRATE?

What does a legacy migration look like?

If your legacy system has outlived its manufacturer's lifecycle, or you're looking to standardize on a platform, Champion will work with you to develop a plan that both meets your budget and schedule.

Champion's approach to legacy migration relies on a thorough front end design, detailed planning, thorough testing, training, and ongoing support. Our expert engineers will lead you through our proven process to ensure that you receive the control system that best fits your needs.

Protecting Your Investment

From planning through implementation, we can secure your system from today's latest cyber threats.

Champion's ISA Certified Cybersecurity Experts are trained in the latest ISA/IEC 62443 standards for Cybersecurity. This ensures your system benefits from the most current, comprehensive safeguards for daily operations.

OPERATIONS & LOCATIONS

With numerous offices across the Gulf Coast and Rockies, **Champion Technology Services, Inc.** holds project experience in nearly all 50 states. Our strategic positioning allows us to meet the demands of our clients throughout the U.S., Gulf of Mexico, and Internationally.
