## **OUR HISTORY**

**Champion Technology Services, Inc.** was founded in 2000 with a main focus in industrial automation and control systems integration, including data management. Most automation projects include design, fabrication, integration, installation, commissioning, and follow-up maintenance of control systems using the latest DCS, PLC, and HMI technologies. Champion has numerous offices spread across Louisiana, Texas, Utah, and Colorado. We serve clients in nearly all 50 states, as well as internationally.

The Champion team is a strong and dynamic unit. Our clients recognize the quality of our work, the value of our experience, and the importance that we place on our relationships with each of them. For this reason, when our clients encounter a problem, the first call they make is to Champion.

With service agreements and timely back-ups for control systems, clients can rest assured that there will be minimal downtime in the event of any system or hardware complications. We are proud to be a part of all of our clients' projects, however big or small they may be.

## **OUR MISSION**

*To improve the overall safety, well-being, and prosperity of our employees, our company, our customers, and our communities through the intelligent and efficient application of the resources and technologies currently available.*

# INDUSTRY PARTNERS

Champion is committed to meeting the needs of our clients regardless of the technology or platform they use. When possible, we build relationships with manufacturers that welcome integrators as partners. As a trusted industry leader, Champion is always seeking the best solution for every client need. Some of our partnerships include:
