

Collaborate ➤ Innovate ➤ Accelerate

Operational Technology

Accelerating Digital Transformation

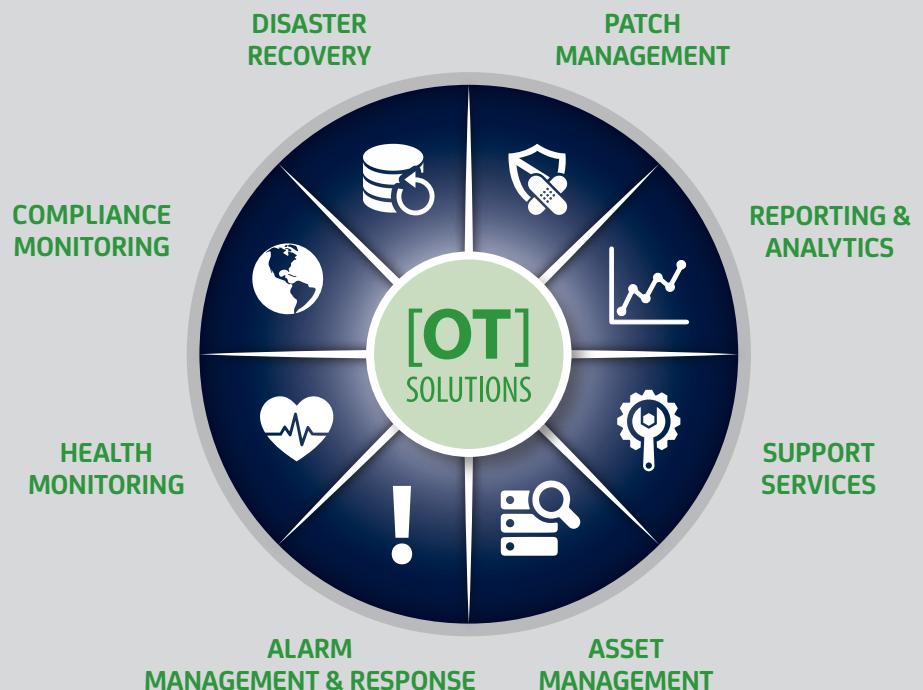

Is your facility looking to optimize its processes and increase efficiency, while improving its cybersecurity posture? Using the latest industry-proven technologies, Champion specialists accelerate “digital transformation” for facilities, adhering to the most stringent of industry standards.

The result? Increased security, flexibility, and production uptime – all monitored from the plant floor to your Enterprise.

Why won't IT support my OT systems?

Operational Technology – the hardware and software that keep industrial processes going – requires a highly specialized skill set. Both the operational and financial risks are vastly different.

*What do our
OT Solutions
provide?*

CYBERSECURITY

24UP SUPPORT

Champion's **Cybersecurity Solutions** and **24UP Support** offerings bring you the safeguards and support to keep your operation running.

Why Managed Services?

With **Champion's Managed Services Offering (MSO)**, you can benefit from cutting-edge monitoring and 24/7 support that is often unrivaled by traditional service providers. Because our experts are trained in the latest **ISA**, **GICSP**, and **NIST** standards for industrial cybersecurity, you can rest easy knowing your OT systems are in good hands.

Clients benefit from:

24/7 Availability

PREDICTIVE COST

SCALABILITY

Real-Time Analytics

Compliance

Latest Technology

In the event of a catastrophic failure, how long would it take you to get back online? Make sure you have a process and backups in place to restore your system.

Does your facility have an accurate inventory of your system's components? Discover all assets and keep real-time inventory – ensuring the highest levels of uptime.

Most security threats can be mitigated with timely patching. Do you have a strategy in place? Protect your control systems without incurring unnecessary risk.

Alarms can become ineffective without proper benchmarking, monitoring and rationalization. Utilize Champion's alarm management and 24/7 solutions to respond to your system alarms.

In a world of "Big Data," it's critical to determine how to make smart business decisions. Get reporting tailored to your facility's needs, and be proactive.

OT Health Monitoring is necessary to ensure the highest levels of production up-time. Whether to plan scheduled maintenance or respond to incidents, Champion has you covered.

With secure remote connections, you can monitor system health and respond to many issues. The result: Faster incident resolution; less downtime.

Monitor any industrial process to ensure it stays within acceptable levels. Real-time and historical reporting can leverage your facility's critical data, at your fingertips.
